

Orb

Story by Modoluce [FOLLOW](#) [YOUR STORY HERE?](#)

Borrowing its name from optics jargon, where Orbs are mysterious and charming luminous globes, is Modoluce's new suspension lamp with iconic sphere diffuser, crossed by an extended metallic structure that supports the light source: a latest generation LED light engine.  
A classic timeless design, with a retro style touch thanks to the smoked PMMA diffuser, balanced by the metallic finishes of the structure (copper, chrome, brass, or white and black painted).  
Proposed as single version or as cluster compositions of 2,3,4 or 6 elements. It is perfect for living and home interiors, but also for contract spaces: hotels, cafes, fashion stores, professional studios, resort hotels and spas.  
material:  
PMMA smoked globe and structure in painted metal or with galvanising treatment

colours:  
metal finishes: painted white or black matt or galvanised copper, chrome or brass colours

dimensions:  
single suspension Ø cm. 25 x h.cm. 41
